## New Coding Talk: Create Your First InterSystems ObjectScript Code with IRIS Community, Github, Docker and VSCode

Hi Community!

New "Coding Talk" video is already on [InterSystems Developers YouTube](#):

[Create Your First InterSystems ObjectScript Code with IRIS Community, Github, Docker and VSCode](#)

In this video, presented by [@Evgeny Shvarov](#), you will know how to create InterSystems ObjectScript class, run it in a docker container with InterSystems IRIS Community Edition, edit and compile it in Visual Studio Code and push it in Github.

And...

You're very welcome to watch all Coding Talks in a [dedicated "Coding Talks" playlist](#) on our [InterSystems Developers YouTube Channel](#).

Stay tuned! 

[#Beginner](#) [#Docker](#) [#Git](#) [#GitHub](#) [#ObjectScript](#) [#Video](#) [#VSCode](#) [#InterSystems](#) [IRIS](#)
