InterSystems Open Exchange April 2019 Digest

Hi Community!

This is the update on what are the new applications submitted on [OpenExchange](#) in April 2019

New Applications

[Arduino Snippets](#) published by [@Eduard Lebedyuk](#)

Connect your Arduino to InterSystems IRIS or Caché via com port (or usb<->com)

[Japanese Calendar](#) published by [@Hiroshi Sato](#)

Japanese Calendar Converter for InterSystems products

[Cache Quality for Atelier](#) published by [@Daniel Tamajon](#)

IDE extension that helps you detect and fix quality issues as you write code. Like a spell checker, this extension squiggles flaws so they can be fixed before committing code. You can install it directly from Atelier and it will then detect new bugs and quality issues as you code (ObjectScript and JavaScript).

[ETL Interoperability Adapter](#) published by [@Guillaume Rongier](#)

Extend EnsLib.SQL.OutboundAdapter to add batch batch and fetch support on JDBC connection for Ensemble and IRIS.

[R Gateway](#) published by Shiao Bing Sung

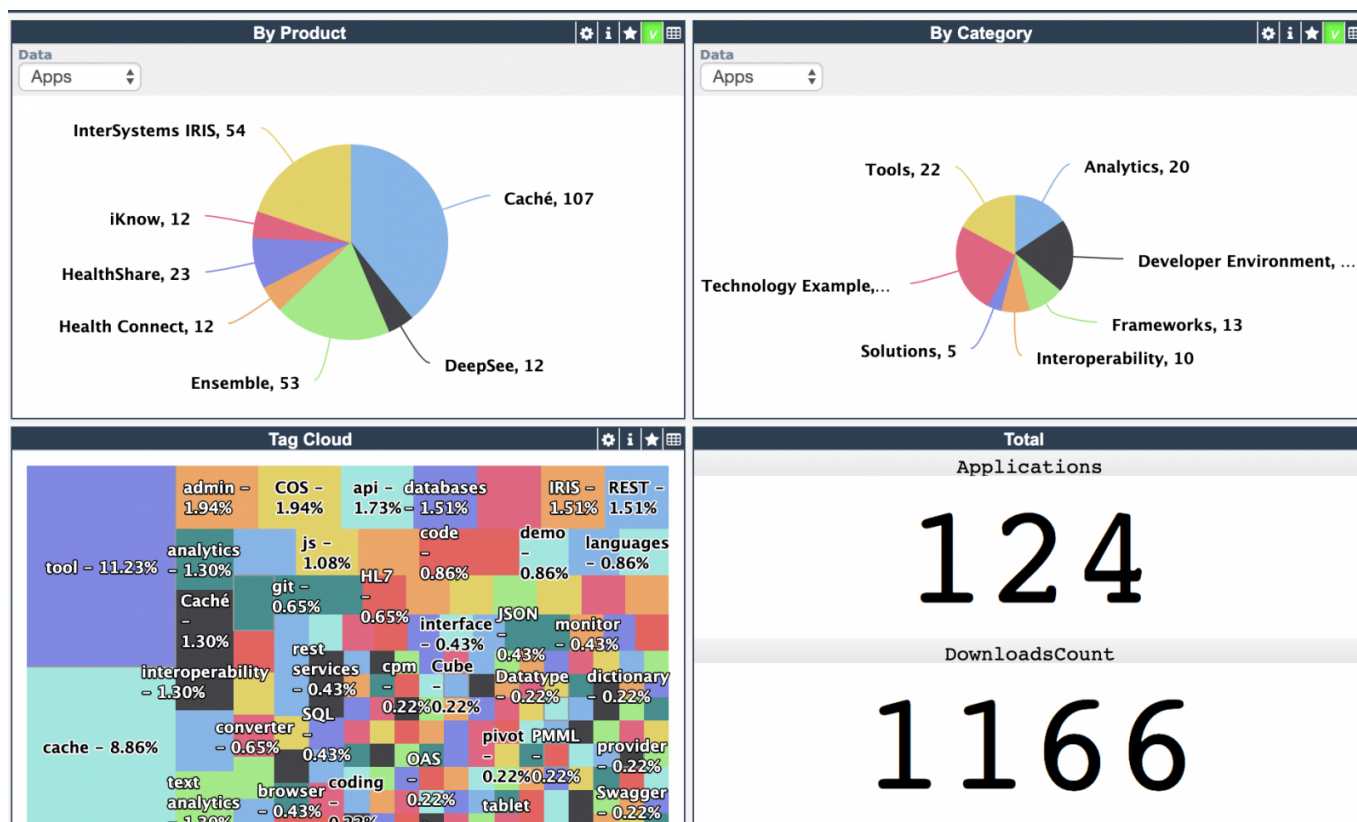

Use R language with InterSystems IRIS

[The Folding Staff](#) published by [@John Murray](#)

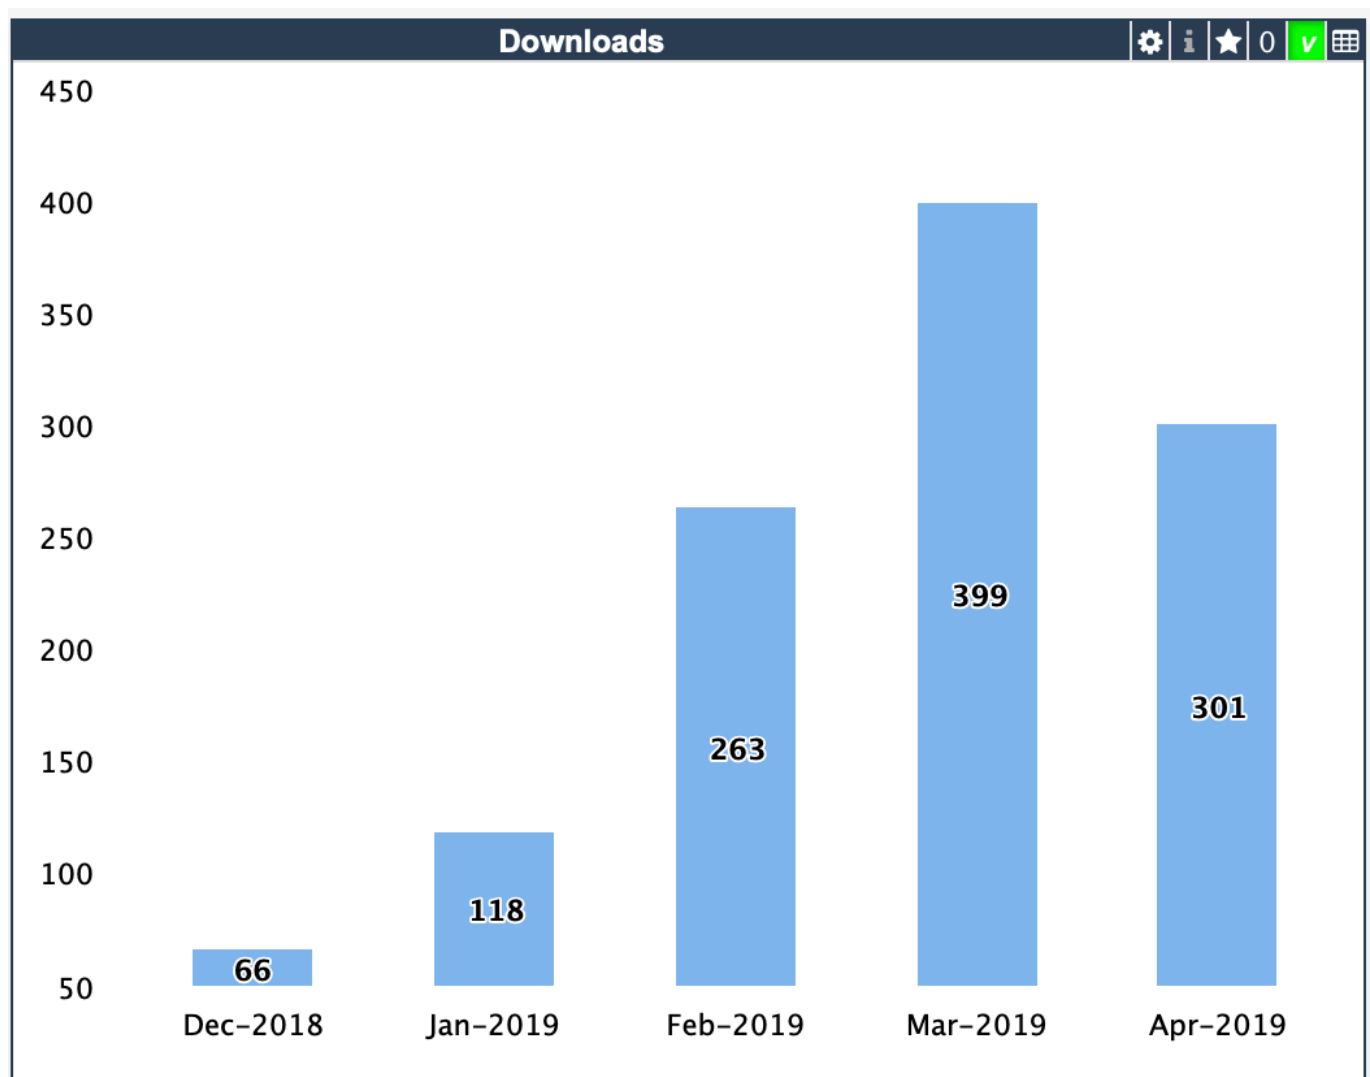

'The Folding Stuff' is a simple VSCode extension that adds Visual Studio Code's existing code folding / unfolding features to the editor context menu.

General stats

Total applications: 124

Downloads monthly:

The most popular apps in April 2019 by downloads

Package	Downloads
PythonGateway	23
WebTerminal	22
Light weight EXCEL download	22
Serenji	16
