Install EnsDemo on IRIS

Has you may know, **EnsDemo** from Ensemble are not available anymore on **IRIS**.

This is a good thing, Iris is cloud oriented, it must be light, fast. Now the new way of sharing samples or modules is through git, continuous integration and [OpenExchange](#).

But, in some cases you want to go back to your good old samples from EnsDemo to get inspiration or best practices.

Good news, there is a git for that :

- https://github.com/grongierisc/InstallEnsDemoLite

How to use it ?

Clone this repository

```
git clone https://github.com/grongierisc/InstallEnsDemoLite.git
```

And run install.sh

```
sh install.sh <IRIS Instance> <IRIS SuperUser Password>
```

It will bring you back all those demo :

- ComplexMap
- CustomSearchTable
- Dashboard
- FloodMonitor
- Loan
- RecordMap
- RecordMapBatch
- REST
- SAP
- Util
- Workflow

You can even do it in one command line :

```
wget https://github.com/grongierisc/InstallEnsDemoLite/archive/master.tar.gz && tar xf master.tar.gz && cd InstallEnsDemoLite-master/ && sh install.sh <IRIS Instance> <IRIS SuperUser Password>
```
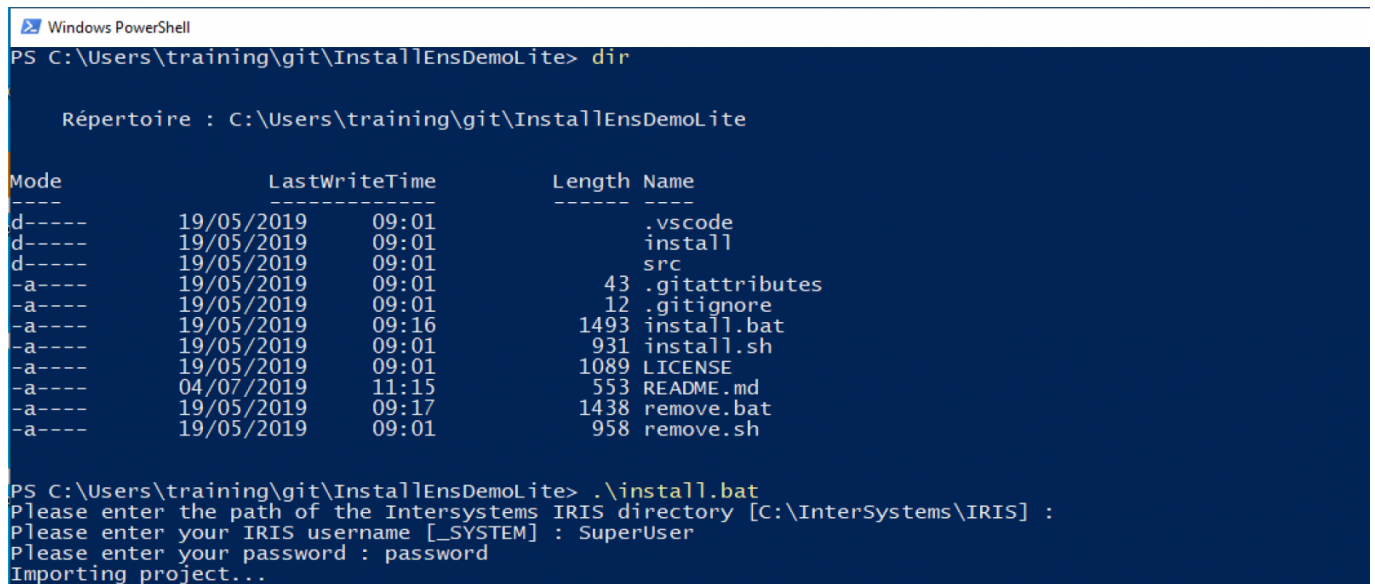

The same repository is available for Iris For Health :

- https://github.com/grongierisc/InstallEnsDemoHealth

This one will bring back EnsDemo with :

- ComplexMap
- CustomSearchTable
- Dashboard
- DICOM
- FloodMonitor
- HL7
- HL7v3
- Loan
- RecordMap
- RecordMapBatch
- REST
- SAP
- Util
- Workflow
- X12

For windows user, you can use the bat installer.

```
Windows PowerShell
PS C:\Users\training\git\InstallEnsDemoLite> dir

    Répertoire : C:\Users\training\git\InstallEnsDemoLite

Mode                LastWriteTime         Length Name
----                -------------         ------ ----
d-----        19/05/2019     09:01                .vscode
d-----        19/05/2019     09:01                install
d-----        19/05/2019     09:01                src
