Experienced Ensemble & Caché Developer seeking new opportunities

Hi Community,

I'm looking for a new contract with immediate availability.

I have 20 years experience with InterSystems technologies in areas such as Healthcare integration and single page web development.

I can work almost anywhere in the UK as well as remote work from my office in Exeter.

If you know of any opportunities or could pass on my LinkedIn details to anyone that might be looking then it would be very much appreciated.

Kind Regards,
Sean.
