New Coding Talk: GitHub Flow with InterSystems IRIS: Edit with VSCode, Test with Docker, Commit, Push, Pull Request

Hi Everyone!

You're very welcome to watch the new video on [InterSystems Developers YouTube](#), recorded by [@Evgeny Shvarov](#) in the new format called "[Coding Talks](#)":

[GitHub Flow with InterSystems IRIS: Edit with VSCode, Test with Docker, Commit, Push, Pull Request](#)

Demo on how to use GitHub flow with InterSystems IRIS. Fork the project with InterSystems ObjectScript, make changes with Visual Studio ObjectScript, test changes with Docker, commit and push and then make pull request to original repository.

In addition, please check this useful article: "[Just for Fun. John Conway's Game of Life](#)"

Feel free to ask your questions in the comments to this post.

Enjoy watching the video!
