SOAP Fault Error <ZSOAP>

Hi All,

While Executing Custom SOAP fault got an error.Please help me out of this.

Sample Code:

```
set fault=##class(%SOAP.Fault).%New()
set fault.faultcode=$$$FAULTServer
set fault.detail="<mymessage>Division error detail</mymessage>"
set fault.faultstring="Division error"
// ReturnFault must be called to send the fault to the client.
// ReturnFault will not return here.
do ..ReturnFault(fault)
```

Error Details:

<ZSOAP>zReturnFault+3^%SOAP.WebService.1

Advance Thanks
