How do I get the value of text input field using JavaScript

Hey Guys,

I got stuck with this for 2 days, please help me

Actually my logic is when I enter the input on the text field in browser, the entered input to be print on the next page but I am getting "Undefined". How to i do it.

Below is my code:

```
Class Patient.Testing Extends %ZEN.Component.page
{

// Class name of application this page belongs to.
Parameter APPLICATION;

// Displayed name of this page.
Parameter PAGENAME = "userLogin";

// Domain used for localization.
Parameter DOMAIN;

// This Style block contains page-specific CSS style definitions.
XData Style
{
<style type="text/css">
/* style for title bar */
#title {
background: #C5D6D6;
color: black;
font-family: Verdana;
font-size: 1.5em;
font-weight: bold;
padding: 5px;
border-bottom: 1px solid black;
text-align: center;
}
#login{
text-align: center;
font-family: Ariel;
font-size: 3.5em;
padding: 180px;
font-color: brown;
}
#content{
text-align: left;
```

```
font-size: 1.5em;
font-color: default;
font-family: default;
}
#content1{
text-align: left;
font-size: 1.5em;
font-color: default;
font-family: default;
}
#button{
text-align: left;
font-size: 1.5em;
font-color: default;
font-family: default;
}
</style>
}
/// This XML block defines the contents of this page.
XData Contents [ XMLNamespace = "http://www.intersystems.com/zen" ]
{
<page xmlns="http://www.intersystems.com/zen" title="">
<html id="title">Welcome!!!</html>
<vgroup width="100%">
<html id="login">Login</html>
<html id="content">Patient Id:</html>
<text id="patientId" value=""/>
<html id="content1">Password:</html>
<text id="patientPass" value=""/>
<button id="button" caption="Login" onclick="zenPage.MyMethod();"/>
</vgroup>
</page>
}
ClientMethod MyMethod() [ Language = javascript ]
{
var pId=document.getElementById("patientId").value;
var pPass=document.getElementById("patientPass").value;
document.write(pId,pPass);
}
}
```

Thanks

Vikram
