constraints for rule failed, but I have no constraints in the rule

In a new rule I configured for a route, I have no constraint configured (so I assume it should pass everything), but I am getting an error that states "Constraints for rule failed"....?

general	ruleSet: Metro Charge Routing				
4 ℃ C × + ↓ ↑					
ruleSet name Metro	Charge Routing to Epic effectiveBegin effectiveEnd				
⊖_1 rule name M	letro DFT to Epic 751 disabled false constraint				
1 when condition 1					
send transform PINEREST1.Metro.DTL.T.Epic751.DFT target T Epic751					
return
