ERROR #9406: Unexpected format for value of field

I got below error when passing Date in timestamp format.

I am using %JSON.Adaptor. Please refer screen 2

The screenshot shows a REST client interface. The top bar has buttons for GET, POST, and other HTTP methods. The main area shows a POST request with a JSON body. The response is an error object with the following structure:

```
{
  "errors": [
    {
      "code": "9406",
      "domain": "%ObjectErrors",
      "error": "ERROR #9406: Unexpected format for value of field, CreatedDate, using class base mapping",
      "id": "JSONImportError",
      "params": [
        "CreatedDate",
        "class base"
      ]
    }
  ],
  "summary": "ERROR #9406: Unexpected format for value of field, CreatedDate, using class base mapping"
}
```

```
> cls > LISDB > ExternalUsers.cls > LISDB.ExternalUsers
```

```
1 | Class LISDB.ExternalUsers Extends (%Persistent, %JSON.Adaptor) [ ClassType = persistent, DdlAllowed, Procedu
2 | {
3 |
```

```
Property CreatedDate As %Library.TimeStamp [ SqlColumnNumber = 18 ];

Property UpdatedById As %Library.Integer(MAXVAL = 2147483647, MINVAL = -2147483648) [ SqlColumnNumber = 19 ]

Property UpdatedByName As %Library.String(MAXLEN = 100) [ SqlColumnNumber = 20 ];

Property UpdatedDate As %Library.TimeStamp [ SqlColumnNumber = 21 ];
```
