Question

[Paul D'Amato](#) · Oct 18, 2019

## What do these \$ZU values control?

In our Iris Messages.log file, we have this line:

```
CTALERT: ZU Changes: $ZU(69,10) has changed; $ZU(69,68) has changed  
; $ZU(69,70) has changed
```

I'd like to understand what changed.

Thank you,  
Paul
