Video Recording: InterSystems Developers Meetup at Global Summit 2019

Hi Community,

As you may know, we successfully held [InterSystems Developers Meetup in Boston](#) at Global Summit 2019. And now it's time to find out which solutions development on InterSystems IRIS have been discussed!

Please welcome the Meetup video recording on [InterSystems Developers YouTube Channel](#):

[InterSystems Developers Meetup - Global Summit 2019](#)

So, let's warmly greet these sessions from InterSystems developers:

	TOPIC	
1	Using Python Gateway with InterSystems IRIS	
2	VSCode ObjectScript - your IDE for InterSystems IRIS development	
3	Using Package Manager for deployment InterSystems Solutions	
4	Falling in love with Visual Studio Code and Serenji	
5	InterSystems IRIS and the Cloud	
6	How Your Code Matters!	

P.s. Don't forget to check the useful resources on Open Exchange Marketplace.

Big applause for these speakers! And thanks to all participants of the Meetup!

Please find [more details in this post](#).

Enjoy watching the video!

And...

What about the next events? Do you want our community to held more such meetups for InterSystems developers?

Your feedback is very welcome!

Please leave your suggestions in the comments of this post.
