## CreateBlob

Hi all....

I couldn't find documentation on how to create a blob using the cache JDBC driver.  
I found only one reading example:

<https://cedocs.intersystems.com/latest/csp/docbook/DocBook.UI.Page.cls?K...>

The createBlob Method of the connection class was not implemented:

<https://cedocs.intersystems.com/latest/csp/docbook/DocBook.UI.Page.cls?K...>

Does anyone know how to create a blob without compromising the java heap space?
