New Video: InterSystems IRIS and Intel Optane Memory

Hi Everyone,

Please welcome the new Global Summit 2019 video on [InterSystems Developers YouTube Channel](#):

[InterSystems IRIS and Intel Optane Memory](#)

Optane is a new class of memory from Intel that can accelerate the performance of hard drives. In this video, we will review the performance benefits and show high-level cost comparisons of using Intel Optane memory with InterSystems IRIS. We will also outline various use cases for Optane memory and storage.

Takeaway: Attendees will learn the benefits of using Intel's Optane technology with InterSystems IRIS.

Presenter: [@Mark Bolinsky](#), Senior Technology Architect, InterSystems

And...

Don't forget to subscribe to our [InterSystems Developers YouTube Channel](#).

Enjoy and stay tuned!
