Unknown Licensing Message ?

I find in my message.log an entry I've never seen before:

```
10/31/19-16:00:22:562 (9056) 0 InterSystems IRIS license file (iris.key) must be
validated with License Server.
```

What does it try to tell me?

Is there any action expected?

This is a stand-alone server not connected to any other IRIS instance.

IRIS for Windows (x86-64) 2019.1.1 (Build 608U) Thu Aug 29 2019 00:11:30 EDT

License Server Address/Port: 127.0.0.1/4002

Any enlightenment is welcome.
