How to save file/image at some specific folder.

Hi Team,

I want to save image/file using inter system iris web api.

I am sending file as Base64 formate in JSON object to api .and I want to save it at D/Images folder.

please refer below code that i was tried.

Obj.OrganizationLogoBase64--> has base64 value of image

```
Set decode = $System.Encryption.Base64Decode(Obj.OrganizationLogoBase64)
```

```
set file = ##class(%Stream.GlobalBinary).%New()
```

```
do file.Write(decode)
```
