Use MDX

Hi there,
We need your help, in the build pivot with DMX, we don't can run the pivot. The MDX use is:

WITH MEMBER [Measures].[CondicionesContCompleta] AS (IIf([Measures].[CondicionesContCompleta] = Null, 0,[Measures].[CondicionesContCompleta])) SELECT NON EMPTY ([Gerencia].Gerencia].[Gerencia]) ON ROWS, NON EMPTY ([Measures].[CondicionesContCompleta]) ON COLUMNS FROM [Condiciones]

and when we executed the pivot display the next dialog.

Error#5001: Expected operator within tuple: ('SELECT' @pos 156)(2)
