New Video: InterSystems IRIS on HCI

Hi Community,

The new video from Global Summit 2019 is already on [InterSystems Developers YouTube](#):

[InterSystems IRIS on HCI](#)

HCI, or hyper-converged infrastructure, is a software-defined IT infrastructure that virtualizes all the elements of a conventional system. This video will show the benefits and limitations of deploying an InterSystems IRIS-based application on HCI.

Takeaway: You will gain an understanding of HCI, and learn where and when it may be useful.

Presenter: [@Murray Oldfield](#), Technology Architect, InterSystems

Additional materials to this video you can find in this [InterSystems Online Learning Course](#).

Enjoy watching this video!
