ERROR #7500: SSH Put Error '-2146430933': SSH Error [8010102B]: channel read [FFFFFFFF8010102B] at SFTP.cpp:559,0',code=0)

Hello All,

I am able to transmit a small batch of billing files: B/W 5 and 20 without issue-
Put stream 11@%IO.LibraryStream to /SFTP/unmhsmcsa/OUT/TEST021920201426.tst

But when the size of the batch increases to over 20 the operation hangs and I receive the error below: The file is created in the SFTP server with 0 data.

```
ERROR <Ens>ErrFTPputFailed: FTP: Failed to Put file 'TEST022020201014.tst'  
(msg='Error in SFTP  
Put('/healthshare/db/mgr/Temp/H8XaLoZgkYFkNQ.sftp','/SFTP/unmhsmcsa/OUT/TEST022020201014.tst')  
ERROR #7500: SSH Put Error '-2146430933': SSH Error [8010102B]: channel read [FFFFFFFF8010102B] at  
SFTP.cpp:559,0',code=0)
```

Any help is appreciated.

Below are my settings

I changed the stay connected to 10 and received the same result
