Cache sql syntax and meaning

Hi ,

I have a code written in cache sql and trying to understand it, below is the code , can anyone help me understand what does that mean

ex - !! dosageunit !!

```
SELECT (CASE WHEN (orderdescription IS NULL OR (orderdescription=")) THEN " ELSE (orderdescription)
END) !! (CASE WHEN (dosage IS NULL OR dosageunit IS NULL OR (dosage=") OR (dosageunit=")) THEN "
ELSE (, ' !! dosage !! ' ' !! dosageunit !!
```

Thank You in advance.
