New Video: Diving into InterSystems Cloud Technology

Hi Developers,

Enjoy watching the new video on [InterSystems Developers YouTube](#):

[Diving into InterSystems Cloud Technology](#)

In this video, we will provide details about some of the nuts and bolts of our cloud capabilities, particularly with regards to infrastructure, deployment, and provisioning. We will discuss recent changes to InterSystems IRIS, InterSystems Cloud Manager (ICM), and give a technical view of planned enhancements.

Takeaway: InterSystems IRIS includes tools that can help me deploy applications in the cloud.

Presenter: [@Mark Bolinsky](#), Senior Technology Architect, InterSystems

Additional materials to this video you can find in this [InterSystems Online Learning Course](#).
