Events Calendar on the Developer Community

Hi Community,

We just updated the "EVENTS" section on the Developer Community website!

What's new? Now it includes an event calendar for InterSystems Developers.

Voting in the 2nd InterSystems IRIS Online Programming Contest!

Contest, InterSystems IRIS, Open Exchange
Hi Community!

The registration phase for the second [InterSystems Online Programming Contest](#) has already ended, and now the voting week begins!

We have [7 applications](#) - so you have a set of applications to choose from!

How to vote?

This is easy: you will have one vote, and your vote goes either in Experts Nomination or in Community Nomination.

You can sort events by type: Webinars or Meetups and Conferences. Just choose!

Also, events are now displayed by date - you can easily book your time for the upcoming events or check what happened at the past events.

More convenient, isn't it?

And you're very welcome to submit your ideas in the comments to this post.

Stay tuned!
