INSERT multiple rows

Hey I would like to INSERT multiple rows to 1 table. I need to intersystems cache equivalent for

```
INSERT INTO table_name (column_list)
VALUES
  (value_list_1),
  (value_list_2),
  (value_list_3);
```

Have tried this

post <https://community.intersystems.com/post/how-execute-multiple-query-or-script-sql-management-studio>
but still got an error

[#SQL](#) [#Caché](#)
