## INSERT multiple rows

Hey I would like to INSERT multiple rows to 1 table. I need to intersystems cache equivalent for

```
INSERT INTO tablename (columnlist)
VALUES
  (valuelist1),
  (valuelist2),
  (valuelist3);
```

Have tried this

post <https://community.intersystems.com/post/how-execute-multiple-query-or-script-sql-management-studio>  
but still got an error

[#SQL](#) [#Caché](#)
