InterSystems Developer Survey: Your Opinion Matters!

Hey Everyone!

At InterSystems, the developer community is an integral part of our ecosystem and this role is pivotal in the development of our products and services. As a result, we wanted to undertake market research in recognition of this to discover how best businesses can support developers. We have already asked 300 developers their thoughts, but we wanted to extend this survey to reach more people and also get your views on the current climate as we have all had to adapt our working environments.

Please click [this link](#) to take part in our survey!

Note: The survey will take less than 5 minutes to complete.
