IsO 8583 financial transaction

I have developed a pos and tested my bit map on multiple sites, but the switch is not responding, what do you think the error is:

```
<log realm="channel/192.168.23.23:4988" at="Fri Jun 12 14:42:03 EAT 2020.15" lifespan="64ms">
  <connect>
    192.168.23.23:4988
  </connect>
</log>
<log realm="channel/192.168.23.23:4988" at="Fri Jun 12 14:42:17 EAT 2020.802" lifespan="1ms">
  <send>
    <isomsg>
      <!-- org.jpos.iso.packager.XMLPackager -->
      <header>6000000000</header>
      <field id="0" value="0100"/>
      <field id="2" value="9570059763383210"/>
      <field id="3" value="000000"/>
      <field id="4" value="000000023310"/>
      <field id="7" value="0612144217"/>
      <field id="11" value="137800"/>
      <field id="12" value="144217"/>
      <field id="13" value="0612"/>
      <field id="22" value="05"/>
      <field id="24" value="123"/>
      <field id="25" value="00"/>
      <field id="41" value="00001181"/>
      <field id="42" value="000060001000048"/>
      <field id="52" value="6062D6CB7E28BADC"/>
      <field id="62" value="22114455"/>
    </isomsg>
  </send>
</log>
```

and the response is

```
<log realm="jpos-client-simulator" at="Fri Jun 12 14:42:47 EAT 2020.801">
  <info>
    Response time (ms):30000
  </info>
</log>
<log realm="jpos-client-simulator" at="Fri Jun 12 14:42:47 EAT 2020.803" lifespan="1ms">
  <error>
    Exception :null
  </error>
</log>
```
