InterSystems IRIS AI Programming Contest Kick-Off Webinar

Hi Community!

We are pleased to invite all the developers to the upcoming [InterSystems AI Programming Contest Kick-Off Webinar](#)! The topic of this webinar is dedicated to the [InterSystems IRIS AI Programming Contest](#).

On this webinar, we will talk and demo how to use IntegratedML and PythonGateway to build AI solutions using InterSystems IRIS.

Date & Time: Monday, June 29 — 11:00 AM EDT

Speakers:

[@Thomas Dyar](#), Product Specialist - Machine Learning, InterSystems

[@Eduard Lebedyuk](#), Sales Engineer, InterSystems

IntegratedML is a new technology introduced in InterSystems IRIS which you can use with InterSystems [IRIS 2020.2 Advanced Analytics Preview release](#). IntegratedML:

- Gives users the ability to create, train, and deploy powerful models from simple SQL syntax without requiring data scientists.
- Wraps "best of breed" open source and proprietary "AutoML" frameworks including DataRobot.

- Focuses on easy deployment to IRIS, so you can easily add machine learning to your applications.

Learn more in [IntegratedML Resource Guide](#).

Also, you can use with [IntegratedML template](#).

[PythonGateway](#) is an add-on to InterSystems IRIS which gives you the way to use Python in InterSystems IRIS environment:

- Execute arbitrary Python code.
- Seamlessly transfer data from InterSystems IRIS into Python.
- Build intelligent Interoperability business processes with Python Interoperability Adapter.
- Save, examine, modify and restore Python context from InterSystems IRIS.

Learn more about [Python Gateway](#).

Also, you can use the [Python Gateway template](#), which includes IntegratedML too.

So!

We will be happy to talk to you at our webinar!
