InterSystems IRIS AI Programming Contest Kick-Off Webinar

Hi Community!

We are pleased to invite all the developers to the upcoming InterSystems AI Programming Contest Kick-Off Webinar! The topic of this webinar is dedicated to the InterSystems IRIS AI Programming Contest.

On this webinar, we will talk and demo how to use IntegratedML and PythonGateway to build AI solutions using InterSystems IRIS.

Date & Time: Monday, June 29 — 11:00 AM EDT

Speakers:
   @ Thomas Dyar, Product Specialist - Machine Learning, InterSystems
   @ Eduard Lebedyuk, Sales Engineer, InterSystems

IntegratedML is a new technology Introduced in InterSystems IRIS which you can use with InterSystems IRIS 2020.2 Advanced Analytics Preview release. IntegratedML:

- Gives users the ability to create, train, and deploy powerful models from simple SQL syntax without requiring data scientists.
- Wraps "best of breed" open source and proprietary "AutoML" frameworks including DataRobot.
- Focuses on easy deployment to IRIS, so you can easily add machine learning to your applications.

Learn more in [IntegratedML Resource Guide](#).

Also, you can use with [IntegratedML template](#).

[PythonGateway](#) is an addon to InterSystems IRIS which gives you the way to use Python in InterSystems IRIS environment:

- Execute arbitrary Python code.
- Seamlessly transfer data from InterSystems IRIS into Python.
- Build intelligent Interoperability business processes with Python Interoperability Adapter.
- Save, examine, modify and restore Python context from InterSystems IRIS.

Learn more about [Python Gateway](#).

Also, you can use the [Python Gateway template](#), which includes IntegratedML too.

So!

We will be happy to talk to you at our webinar!
