New Video - ObjectScript with Visual Studio Code

Hi Developers!

Looking for a fast, efficient IDE for developing ObjectScript code? Watch the new video on [InterSystems Developers YouTube](#) for more:

[ObjectScript with Visual Studio Code](#)

Using the InterSystems ObjectScript extension, developers can edit and deploy ObjectScript code with the Visual Studio Code IDE. This video shows how to install the ObjectScript extension, export ObjectScript classes from the server, and write new methods in Visual Studio Code.

Additional materials to this video you can find in this InterSystems Online Learning Courses:
