## New Videos: "What is InterSystems IRIS for Health?" and "FHIR in InterSystems IRIS for Health"

Hey Developers,

Check out the latest video on InterSystems IRIS for Health Data Platform:

[What is InterSystems IRIS for Health?](#)

[FHIR in InterSystems IRIS for Health](#)

InterSystems IRIS for Health is the world's first and only data platform specifically engineering to extract value from health care data. At the core of the platform, InterSystems IRIS for Health provides advanced scalability tools that enable both horizontal and vertical scaling.

Want more? [Explore this InterSystems Learning course](#).

InterSystems IRIS for Health provides developers with the benefits of FHIR combined with scalability, a high-speed database, and an analytics platform which makes it easy to create modern health care applications.

[Try it at InterSystems Learning](#).

Enjoy watching these videos and stay tuned!
