TOCHAR Function not working for 12/31/1840 in Cache DB

Hi,

Below ToChar function is not working as expected

```
SELECT TOCHAR('12/31/1840','mm/dd/yyyy') ---01/12/1841
```

I expect the result to be 12/31/1840. Let me know If there are any suggestion to get the correct result.

Thanks,
Meena
