New Video: Introducing Analytic Workflows

Hi Developers,

The new video from Global Summit 2019 is available on [InterSystems Developers YouTube](#):

[Introducing Analytic Workflows](#)

Taking your wonderful analytics work from the lab to production can be a challenge because modern data teams often consist of multiple people using multiple tools. InterSystems Analytic Workflows is an upcoming capability for InterSystems IRIS that will increase productivity by helping you automate and orchestrate your analytic production processes. Join us to learn more about how we can help your data team be more productive.

Takeaway: InterSystems Analytic Workflows make it easier to build, manage, and monitor your analytics production processes.

Presenter: [@Benjamin De Boe](#), InterSystems Product Manager
