SuperServer port change from 51773 to 1972 on 2020.3+

Hello,

Recently I tried to connect to JDBC on IRIS 2020.3+ and I came across the following error:

```
SQL Error [461] [08S01]: [InterSystems IRIS JDBC] Communication link failure: Communication error: Server closed communication device
```

This error implies that the port is not open.

Checking with the netstat command:

```
irisowner@78c3e30b7f41:/opt/irisapp$ netstat -a
Active Internet connections (servers and established)
Proto Recv-Q Send-Q Local Address Foreign Address State
tcp 0 0 0.0.0.0:1972 0.0.0.0:* LISTEN
tcp 0 0 127.0.0.11:38005 0.0.0.0:* LISTEN
tcp 0 0 0.0.0.0:52773 0.0.0.0:* LISTEN

```

Actually, port 51773 is not open because since version 2020.3+ the superserver port is 1972 as Caché and Ensemble.

Hope this helps.
