## Convert date from: 2021-08-18T07:44:14.180+0000 to dd/mm/yyyy

Hello,

We would need help.

We have used the following commands:

```
set fecha = "2021-08-18T07:44:14.180+0000"
```

```
set nuevaFecha = ##class(Ens.Util.Time).ConvertDateTime(fecha, "%Y-%m-%dT%H:%M:%S", "%d/%m/%Y")
```

And when we write it to the terminal:

```
w nuevaFecha
```

It outputs nothing

Could you help us?
