New Video: Building Data-Driven Web Apps

Hi Community,

Enjoy watching the new Global Summit 2019 video on InterSystems Developers YouTube Channel:

Building Data-Driven Web Apps

It's easier than ever to develop clean, ReactJS apps using InterSystems IRIS REST API. In this video, we will show how to build a simple but feature-rich open-source ReactJS app that can serve as a template/toolkit for other developers.

Takeaway: You will leave with well-written sample code to kick start their front-end development efforts.

Presenter: @Sergei.Shutov, Developer, InterSystems
