[Resolved] Task manager email notification

Hi,

I created a task from Management portal Task manager to use the Ens.Util.Tasks.Purge task . Task set up includes email notification setup for Completion email and error email.

Task Scheduler Wizard

This wizard helps to you schedule a task for execution by the Task Manager or to edit the details of a previously scheduled task.
For user-defined tasks you must first create a new subclass of the %SYS.Task.Definition class which will then be selectable as a 'Task type'.

Task name: *	Email test task
Description:	Email test
Namespace to run task in:	ADTFARM9
Task type: *	Ens.Util.Tasks.Purge

BodiesToo	☑
KeepIntegrity	☐
NumberOfDaysToKeep	72
TypesToPurge *	All Types

Task priority:	Priority Normal
Run task as this user:	_purges
Open output file when task is running?	No
Output file:	Browse...
Suspend task on error?	No
Reschedule task after system restart?	No
Send completion email notification to:	email@nhs.net
Send error email notification to:	email@nhs.net

-

This task is giving an error and no email is generated:

`<CLASS DOES NOT EXIST>zSendMail+22^%SYS.TaskSuper.1 *Security.SSLConfigs`

I tested all other task types available from Ens.Util.task but all are giving the same error.

Last Start	Completed	Status	Result	Namespace	Routine	PID	%ER Date	%ER Error #	User	Log Date
2020-09-04 09:37	2020-09-04 09:37	1	<CLASS DOES NOT EXIST>zSendMail+22^%SYS.TaskSuper.1 *Security.SSLConfigs	ADTFARM9	barts.commsvcs.tasks.PurgeHL7MessagesByDate	10552	09/04/2020	12	_purges	2020-09-04
2020-09-04 09:35	2020-09-04 09:35	1	<CLASS DOES NOT EXIST>zSendMail+22^%SYS.TaskSuper.1 *Security.SSLConfigs	ADTFARM9	Ens.Util.Tasks.PurgeMessageBank	8020	09/04/2020	11	_purges	2020-09-04
2020-09-04 09:34	2020-09-04 09:34	1	<CLASS DOES NOT EXIST>zSendMail+22^%SYS.TaskSuper.1 *Security.SSLConfigs	ADTFARM9	Ens.Util.Tasks.PurgeMessageBank	15520	09/04/2020	10	_purges	2020-09-04
2020-09-04 09:32	2020-09-04 09:32	1	<CLASS DOES NOT EXIST>zSendMail+22^%SYS.TaskSuper.1 *Security.SSLConfigs	ADTFARM9	Ens.Util.Tasks.PurgeActivityData	8588	09/04/2020	9	_purges	2020-09-04
2020-09-04 09:29	2020-09-04 09:29	1	<CLASS DOES NOT EXIST>zSendMail+22^%SYS.TaskSuper.1 *Security.SSLConfigs	ADTFARM9	Ens.Util.Tasks.Purge	3980	09/04/2020	8	_purges	2020-09-04

Not sure if this Is this a bug or some missing configuration in the task setup ? Anyone noticed any similar issue or any idea how to fix this ?

Thank you for your help.

Regards,

Mary
