New Video - Data Platform Scalability

Hi Developers!

Please welcome the new video on [InterSystems Developers YouTube](#):

[Data Platform Scalability](#)

Your data platform should support your business as you grow in data and use. Watch the video to learn how the horizontal and vertical scaling capabilities in InterSystems IRIS® data platform — including parallel query execution and workload balancing — improve your system's performance and help your data platform grow with your business.

Learn more at the "[Data Platform Scalability](#)" learning course.

Subscribe to [InterSystems Developers YouTube](#).

Enjoy and stay tuned!
