InterSystems Hands-On Experience Labs Available This Week to Virtual Summit Attendees

Get your hands on our technology with On-Demand Experience Labs **available now through November 6th**. Each lab is paired with an office hour session scheduled for this week. Learn more about how you can get hands-on with our technology.

Join the office hours to get answers your questions about the labs, talk about how the technology fits into your environment, and discuss implementation. Sign up for the Office Hours/On-Demand Experience Labs today. The labs have gotten great reviews so far!

Experience Lab Topics

- InterSystems ObjectScript Development in Visual Studio Code
- HealthShare Provider Directory: Sharing Clean Provider Data with FHIR
- Getting Started with InterSystems Reports

 Please complete the on-demand labs before arriving for office hours.
