New Video: Creating InterSystems IRIS Analytics Solutions Using Docker & VSCode

Hey Developers,

Please welcome the first session from InterSystems Virtual Summit 2020:

Creating InterSystems IRIS Analytics Solutions Using Docker & VSCode

See an InterSystems IRIS business intelligence solution created from the ground up using Docker, VS Code, and Open Exchange tools. We used the IRIS Analytics Template from Open Exchange.

Additional materials to this video you can find in this InterSystems Online Learning Course.
