TLSv1.2 at Caché 2012.1.2

Hello, I have an SSL /TLS configuration that used TLSv1.0 encryption.

However, I need to update to the TLS 1.2 version of encryption, and apparently Caché 2012.1 does not support it according to this link: https://community.intersystems.com/post/tls-v12-support-cach%C3%A9

Can I add a library to the Cache, enable TLSv1.2 in some way, or just a version update?

#Security #SSL #Caché
Product version: Caché 2012.1
$ZV: Cache for UNIX (Red Hat Enterprise Linux 5 for x86-64) 2012.1.2 (Build 702011663) Tue Jun 19 2012 15:24:54 EDT
