InterSystems Grand Prix Programming Contest

Hey Developers!

We have great news for InterSystems IRIS developers! We're pleased to invite you all to join our annual competition of creating open-source solutions using InterSystems IRIS! Please welcome:

[InterSystems Grand Prix Programming Contest](#)

Duration: February 8 - March 8, 2021

Total prize: $16,000

Prizes

This time we have increased our money prizes! Please welcome:

1. Experts Nomination - winners will be determined by a specially selected jury:

    1st place - $6,000

    2nd place - $3,000

    3rd place - $2,000

2. Community Nomination - an application that will receive the most votes in total:

    1st place - $3,000

    2nd place - $1,500

    3rd place - $500

If several participants score the same amount of votes they all are considered winners and the money prize is shared among the winners.

Who can participate?

Any Developer Community member, except for InterSystems employees. Create an account!

And this time developers can team up to create a collaborative application. Allowed from 2 to 5 developers in one team.

Do not forget to highlight your team members in the README of your application – DC user profiles.

Contest Period

You asked for it – we did it! We've extended the development phase! So now:

February 8 - 28: Application development and registration phase (also during this period, you can edit your projects).

March 1 - 7: Voting phase.

March 8: Winners announcement.

The topic

InterSystems IRIS applications

Present any application which uses InterSystems IRIS as a backend (API or database) with any type of InterSystems IRIS API or data model.

You are welcome to improve your applications which you presented in the InterSystems contest series last year and submit them for the Grand Prix. And you are welcome to submit a 100% new application.

The application should work either on IRIS Community Edition or IRIS for Health Community Edition or IRIS Advanced Analytics Community Edition.

The application should be Open Source and published on GitHub.
