

# Open Exchange January 2021 Release

Announcement

[Evgeny Shvarov](#) · Jan 30, 2021

## Open Exchange January 2021 Release

Hi developers!

Want to share with you the new release on Open Exchange we had in January 2021:

- Applications Downloads sorting;
- Contest Voting UX enhancements.

### Applications by Downloads

Now you can sort applications on Open Exchange by number of [Downloads in descending order](#). Choose the sorting selector to Downloads:

### 400 Applications

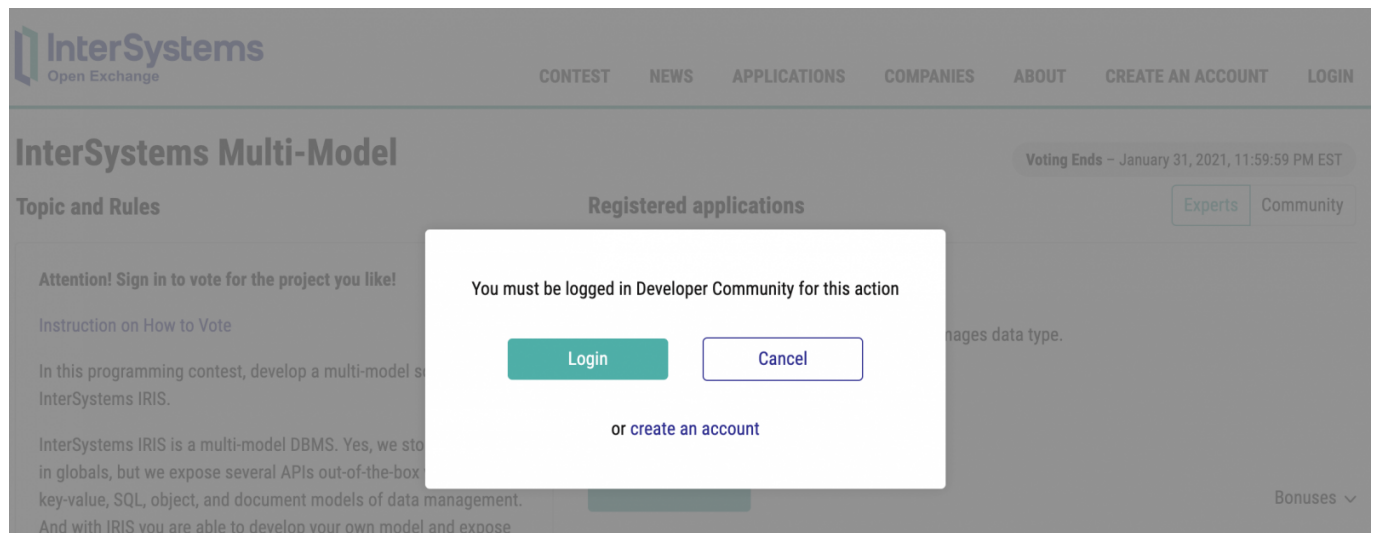

The screenshot shows the Open Exchange application list interface. At the top left, there is a search bar with the text "Search". Below it is a "New" button. To the right of the search bar, there is a "Sorted by" dropdown menu with options: "Recently added", "Name A-Z", "Stars", and "Downloads". A red arrow points to the "Downloads" option. Below the search bar, there are three application cards. The first card is for "VSCode-ObjectScript" (Developer Environment, 17 stars, Published). The second card is for "iris-history-monitor" (Technology Example, 17 stars, Published). The third card is for "PythonGateway" (Interoperability, 3 stars, Published). On the left side, there is a "Show only" section with checkboxes for "Starred by me" and "Followed by me". Below that is a "Manage Apps" button with an upward arrow.

### Contest Voting UX Enhancement

Now if you not logged in you see the [voting buttons](#) which invite you to sign in to make the option to vote for the applications you like.

# Open Exchange January 2021 Release

Published on InterSystems Developer Community (<https://community.intersystems.com>)

The screenshot shows the InterSystems Open Exchange website. At the top, there is a navigation bar with links for CONTEST, NEWS, APPLICATIONS, COMPANIES, ABOUT, CREATE AN ACCOUNT, and LOGIN. The main content area features a contest titled "InterSystems Multi-Model" with a "Registered applications" section. A modal dialog is displayed in the center, stating "You must be logged in Developer Community for this action" and providing "Login" and "Cancel" buttons, along with a link to "or create an account". The background is dimmed, showing details of the contest, including a voting end date of January 31, 2021, 11:59:59 PM EST, and a "Community" filter.

Thank you for your attention!

We invite you to submit [new issues for Open Exchange](#) to make it better!
