Meet the Global Masters Winners for January!

Hi Developers,

For the first time, we announce the winners of our monthly Global Masters competition here, on the Developer Community! Please welcome our awesome January 2021 Global Masters Heroes!

The storm of applause goes to these developers and their great contribution to DC in January 2021:

@ Yuri Marx, *YM Services, Brazil*

@ Sergey Mikhailenko, *AO Mosvodokanal, Russia*

@ Yone Moreno, *Everis, Spain*

Learn more about the competition and our awesome winners below.

> *About Global Master of the Month competition on* Global Masters Advocate Hub: *we nominate advocates every month who have gone the extra mile by being highly engaged in the Global Masters and Developer Community. Winners get 1000 points and a special badge. We also offer for winners to publish their bio – now in the article on the Developer Community!*

About @ Yuri Marx

Yuri is the Winner with **12 new posts**, 14 comments, 5 translates on DC, 1 new application on Open Exchange and great activity on Global Masters.

Thank you for your awesome contribution, Yuri!

Yuri is a Software Architect, YM Services.

Yuri's been working in IT for 22 years, 4 years with InterSystems technology. Key areas of expertise: InterSystems IRIS, Software Architecture, SOA, BPM, Java, REST API, Frontend and Backend development and Data Privacy.

And here are some words from Yuri himself:

– I have 26 technical certifications (Java, SOA School, Oracle, IBM, OMG, DPO, ITIL, COBIT) and now I'm studying to get IRIS certification.

In 2018, I founded two startups, IA Solutions and Visum Consult. First, has a product named ShelockIA, working with facial recognition and machine learning to promote smart cities to the public sector and commercial intelligence to the private sector (working to embed IntegratedML).

Last, Visum Consult has a product called DPO Center to manage data privacy programs into LGPD/GDPR initiatives (IRIS used here).

My products are developed using the same InterSystems IRIS best practices: open patterns and architecture, end-to-end with multimodel database, BI, AI, ESB and great frontend/backend building blocks.

In my personal company, YM Services, I am Senior Software Architect Advisor to Engie and Banpara.

The photo above was taken in 2018 when I started to work with IRIS and visited InterSystems HQ. Carlos Nogueira and Alexandre Tunes (ISC Head Brazil) introduced me to @ Evgeny Shvarov, but my limited English did not allow me to enjoy the opportunity. Now with DC, I'm sure that I will enjoy it, and making great friends, and learn a lot.

Connect with Yuri on LinkedIn now to boost your network.

About @ Sergey Mikhailenko

Sergey is the Winner with earned "Silver Open Exchange Developer" badge for **10 applications on Open Exchange** (2 new apps in Jan'21), "Reporter Badge" for 5 articles on DC (with 1 new in Jan'21), 8 Pull Requests for the Open Exchange apps.

Thank you, Sergey!

Sergey is a Chief Specialist at AO Mosvodokanal. He has been in the profession since 1986 and began to program in Diams (Russian analog of DSM) on PDP11, then MSM. He's been working with InterSystems technology since 1998 (more than 20 years!).

"In my career, I have consistently applied the MUMPS technology in my projects. I am currently a full stack developer".

About @ Yone Moreno

Yone achieved the Socratic Member Badge for 50 questions on DC, published 5 new questions and 3 comments in January – congratulations!

Thanks to all the winners for your constant great contribution to InterSystems Developer Community!

And let's congratulate our Heroes in the comments below.

Join the Global Masters Advocate Hub and who knows, maybe you are the next Global Master of the month!
