Meet the Global Masters Winners for February!

Hi Developers,

We hope that you enjoy participating in our Global Masters Advocate Hub and have fun completing our exciting challenges. 😉

And now it's time to announce the Winners for February 2021! Please welcome our awesome Global Masters Heroes!

The storm of applause goes to these developers and their great contribution to DC in February 2021:

@ YURI MARX GOMES, *Software Architect, YM Services, Brazil*

@ Robert Cemper, *ex Senior Sales Engineer from InterSystems, Germany*

@ Oliver Wilms, *Integration Engineer, Take2 Consulting, USA*

Learn more about the competition and our awesome winners below.

About @ Oliver Wilms

Oliver achieved the Inquisitive Badge for 25 questions on DC, published 1 new question and 3 comments in February – congratulations!

"I was born in Hamburg, Germany. Now I live in Frisco, Texas, USA. I work at Take2 Consulting, LLC (Take2 IT - Progressive Minds / Creative Solutions) as Integration Engineer as contractor for Department of Veterans Affairs.

I worked with InterSystems technologies since 2001. I started learning Cache Objects, Cache Server Pages, and Cache Object Script. In 2018 I had an opportunity to work on Health Connect. The first project I worked on was ingesting claims files and inserting data into Oracle database tables. Lately I have been working in AWS redesigning a different Health Connect solution to run in containers working with Elastic Container Service and lately specifically Fargate.

I became a grandfather last year. I enjoy my work, listening to music, as well as watching soccer games".

About @ YURI MARX GOMES

Yuri is the Winner with 13 new posts , 11 comments, 2 new applications on Open Exchange, and great activity on Global Masters.

Thank you for your awesome contribution, Yuri!

Yuri is a Software Architect, YM Services.

Yuri's been working in IT for 22 years, 4 years with InterSystems technology. Key areas of expertise: InterSystems IRIS, Software Architecture, SOA, BPM, Java, REST API, Frontend and Backend development and Data Privacy.

And here are some words from Yuri himself:

"I have 26 technical certifications (Java, SOA School, Oracle, IBM, OMG, DPO, ITIL, COBIT) and now I'm studying to get IRIS certification.

In 2018, I founded two startups, IA Solutions and Visum Consult. First, has a product named ShelockIA, working with facial recognition and machine learning to promote smart cities to the public sector and commercial intelligence to the private sector (working to embed IntegratedML).

Last, Visum Consult has a product called DPO Center to manage data privacy programs into LGPD/GDPR initiatives (IRIS used here).

My products are developed using the same InterSystems IRIS best practices: open patterns and architecture, end-to-end with multimodel database, BI, AI, ESB and great frontend/backend building blocks.

In my personal company, YM Services, I am Senior Software Architect Advisor to Engie and Banpara.

The photo above was taken in 2018 when I started to work with IRIS and visited InterSystems HQ. Carlos Nogueira and Alexandre Tunes (ISC Head Brazil) introduced me to @ Evgeny Shvarov, but my limited English did not allow me to enjoy the opportunity. Now with DC, I'm sure that I will enjoy it, and making great friends, and learn a lot".

About @ Robert Cemper

In February, Robert published 3 posts and 40 comments on DC   , uploaded 3 applications to Open Exchange, and he also created an awesome testimonial video about InterSystems IRIS!

Robert C. Cemper is an ex Senior Sales Engineer from InterSystems in Darmstadt. He is retired since 2014. Now he enjoys helping others to succeed with InterSystems' products.

He has been 45 years in this profession and worked for more than 12 years directly for InterSystems.

He started immediately after getting Master's degree at Tech.University in Vienna in 1972 at SIEMENS as SW engineer developing a Virtual Machine environment running a 1MB box on 56kB memory.

In 1975 he joined OLIVETTI as Sales Engineer, acting as System and Networks Engineer.

In 1978 he moved to DIGITAL EQUIPMENT Corp. as Sales & Support Engineer for MUMPS & DSM-11 and this was when he first met Terry Ragon (that just had

founded InterSystems) when Terry was teaching the Global Module for DSM-11 at DEC-HQ in Maynard, MA.

1980-1985 he developed a stand-alone operating system + extended MUMPS interpreter + DB + ECP like distributed servers on bare bone VAX hardware in competition to InterSystems' ISM/OpenM and DEC's DSM both running on top of VMS returned to DEC in 1985 covering several local international Management positions until DEC was swallowed by COMPAQ.

2002 he joined InterSystems as Senior Sales Engineer located in Vienna tied to Darmstadt. He promoted Ensemble, DeepSee from day 1 in Austria, Germany, UK, Switzerland running session on various global Summits mostly on CSP, ZEN, SVG Dashboards... winning large customers and many benchmarks.

From 2015 to 2020 Robert assisted Frankstahl GmbH in Austria to get ready for the move to IRIS, Docker, ...

His personal favorite: implementing R-tree search and beating Oracle Spatial by multiple decades.

Other interesting facts about Robert:

- He is from Vienna, Austria
- He is married for 52 years
- He has 3 successful children and 4 grand-children
- Favorite composer: Pjotr Illych Tchaikovsky
- Favorite painter: Ilya Yefimovich Repin
- His hobbies are classic music (opera), family, traveling, Computers & Software
- Personal mission statement: "For an engineer 'IMPOSSIBLE' doesn't exist"

Connect with Robert on Developer Community now to boost your network!

Thanks to all the winners for your constant great contribution to InterSystems Developer Community!

Let's congratulate our Heroes in the comments below!

About Global Master of the Month competition on Global Masters Advocate Hub: we nominate advocates every month who have gone the extra mile by being highly engaged in the Global Masters and Developer Community. Winners get 1000 points and a special badge. We also offer for winners to publish their bio – now in the article on the Developer Community!
