## Pass a SQL Query to the IRIS Power BI Connector

Hi,

Im wondering if its possible to pass a SQL query through to the Power BI IRIS Connector? I can't currently see an option - and have tried through advance editor to use M Query syntax to attempt this with no luck.

InterSystems IRIS

Host (IP Address) ⓘ  
Example: localhost ⚠

Port ⓘ  
Example: 51773 ⚠

Namespace ⓘ  
Example: USER ⚠

Connect over SSL/TLS (optional) ⓘ  
Yes ▾

Enable ODBC Logs (optional) ⓘ  
No ▾

Data Connectivity mode ⓘ  
 Import  
 DirectQuery

OK Cancel

Has anyone else in the community had any luck or know if this is supported?

Thanks.
