New Video: Deploying InterSystems IRIS Solutions into Kubernetes Google Cloud

Hi Community,

Please welcome the new video on [InterSystems Developers YouTube](#):

[Deploying InterSystems IRIS Solutions into Kubernetes Google Cloud](#)

See how an InterSystems IRIS data platform application is deployed into a Kubernetes cluster, specifically on Google Kubernetes Engine (GKE), using Terraform to create a cluster and a CI/CD GitHub implementation called GitHub Actions to automate deployment steps.

Access all code samples [here](#).

Presented by [@Mikhail Khomenko](#), DevOps Engineer

Additional materials to this video you can find in this [InterSystems Online Learning Course](#).

Enjoy watching this video!
