Webinar: Connect Data and Application Silos to Accelerate Business Insights At Scale

Hi Community,

We're pleased to invite you to join the upcoming [webinar "Connect Data and Application Silos to Accelerate Business Insights At Scale"](#) on April 8 at 10:00 AM EDT!

The explosion of business systems and processes and their resulting data silos has made an overarching view of enterprise information more challenging than ever. Join two data management industry veterans as they discuss the latest progress in data management technology, working with transactional AND analytic data, and how the financial services industry is addressing challenges to speed insight and innovation.
