## Maintenance releases are Generally Available for Caché, Ensemble, and InterSystems IRIS

Three new sets of maintenance releases are now available:

- Caché 2018.1.5, Ensemble 2018.1.5, and HSAP 2018.1.5
- InterSystems IRIS 2019.1.2, IRIS for Health 2019.1.2, and HealthShare Health Connect 2019.1.2
- InterSystems IRIS 2020.1.1, IRIS for Health 2020.1.1, and HealthShare Health Connect 2020.1.1

Installation kits and containers can be downloaded from the [WRC Software Distribution site](#).

These are maintenance releases with many updates across a wide variety of areas. For information about the corrections in these releases, refer to the documentation for that version, which includes a Release Notes and Upgrade Checklist, and a Release Changes list, as well as the Class Reference and a full set of guides, references, tutorials, and articles. All documentation can be reached via [docs.intersystems.com](https://docs.intersystems.com).

New platform support has also been added to these releases. In particular, Ubuntu 20.04 LTS support has been added to all releases, IBM AIX 7.1 and 7.2 for System p-64 support has been added to 2019.1.2 (and was already in 2020.1), and ARM64 support for Linux was added to 2020.1.1. For details, see the Supported Platforms document for each release.

Build numbers for these releases are shown in the table below:

Version	Product	Build number
2018.1.5	Caché and Ensemble	2018.1.5.659.0
2018.1.5	Caché Evaluation	2018.1.5.659.0su
2018.1.5	HealthShare Health Connect (HSAP)	2018.1.5HS.9056.0
2019.1.2	InterSystems IRIS	2019.1.2.718.0
2019.1.2	IRIS for Health	2019.1.2.718.0
2019.1.2	HealthShare Health Connect	2019.1.2.718.0
2020.1.1	InterSystems IRIS	2020.1.1.408.0
2020.1.1	IRIS for Health	2020.1.1.408.0
2020.1.1	HealthShare Health Connect	2020.1.1.408.0
2020.1.1	InterSystems IRIS Community	2020.1.1.408.0

2020.1.1	IRIS for Health Community	2020.1.1.408.0
2020.1.1	IRIS Studio	2020.1.1.408.0
