## Meet the Global Masters Winners for March!

Hi Developers,

It's time to announce the Winners for March 2021! Please welcome our awesome Global Masters Heroes!

The storm of applause goes to these developers and their great contribution to DC in March 2021:

[@Robert Cemper](#), ex Senior Sales Engineer from InterSystems, Austria

[@Dmitriy Maslennikov](#), Co-founder, CTO and Developer Advocate, CaretDev Corp, Russia

[@Henrique Dias](#), System Management Specialist / Database Administrator, Sao Paulo Federal Court, Brazil

Learn more about the competition and our awesome winners below.

### About [@Dmitriy Maslennikov](#)

Dmitry achieved the Influencer badge for 25 articles on DC, published 1 article, 23 comments, 5 accepted answers, became the Recognizable Commenter and ... the winner of the InterSystems Grand Prix Contest in Experts nomination in March – congratulations!

"For the last 14 years, changed several companies, working in different sectors, with different sizes of projects, and even in different countries. But always stayed with InterSystems. Participant of several latest InterSystems Global Summits in a row and some other events in Europe, as well as a speaker sometime. Author of VSCode extension for ObjectScript, and few other open-source projects.

And now Co-founder and CTO at [CaretDev Corporation](#), where now I am able to use my knowledge and experience to help companies working with InterSystems technologies to become more powerful and productive."

## About [@Henrique Dias](#)

Henrique earned the Silver Open Exchange Developer Badge for 10 Apps on Open Exchange, wrote 1 new post, 11 comments, made 3 translations, and had great activity on Global Masters - Congratulations!

"I'm System Management Specialist / Database Administrator for the Sao Paulo Federal Court.

I've been working with IT since 2003, most of the time in the Healthcare industry. In my first year of working with software implementation, I had my first contact with the InterSystems technology.

Career path:

2003-2006 I worked in a TrackCare implementation, dealing globals instead of tables, pieces instead of columns. It was mind-blowing for me.

2006-2009 I switch jobs and started to work with Oracle PeopleSoft in ERP implementations in different industries as University, Insurance Companies, Bank, Energy.

At the end of 2009, I had a chance to get back to work with InterSystems technologies again, and I joined InterSystems Corporation.

2009-2013 I worked as a Technical Specialist with Trakcare implementation and been a part of the Trakcare Edition Brazil Team.

In 2014 I started to work in an InterSystems partner as a Senior Software Developer with Supply Chain software, most of the time inside the healthcare industry, the area that I like the most.

In middle 2019 I was invited to work as Systems Management Specialist / Database Administrator at Sao Paulo Federal Court.

Other facts about Henrique: Born in 1984, he is half Portuguese, half Japanese, born and raised in Brazil. He is married and father of 2 children (7-years-old boy and 1-year-old girl) His hobbies besides technology are playing with my kids, videogames, traveling, reading mangás, and draw.

Here's the drawing of one of the characters of Dragon Ball that Henrique did:

A photo Henrique took in 2018 at the top of Mount Fuji, Japan:
