Cache Systems Backup

Please how can I schedule a call with InterSystems admin? We have a need to back up our cache DB server in azure using recovery services vault/snapshot. We Have come up with several designs but we need expert advice from InterSystems's team or anybody here in the community. I have been asked to contact an InterSystems admin for support but I don't know how to schedule a meetings since they don't have teams presence with our company.

#Caché
Product version: IRIS 2020.1
