## New Video: Deploying InterSystems IRIS Docker Solutions to GKE Cloud in 5 Minutes

Hi Developers,

Please welcome the new video specially recorded for [Developer Tools programming contest](#):

[Deploying InterSystems IRIS docker solutions to GKE cloud in 5 minutes](#)

This video will demo how one can use a template of the InterSystems IRIS data platform, build a solution using Docker and deploy it with an arbitrary DNS with HTTPS enabled as a working service on Google cloud using GKE and cloud run technology.

[iris-google-run-deploy-template](#)

This demo supports the programming [contest happening now](#) and lets all the participants use the secret key and deploy their contest solutions on the InterSystems account at [name.contest.community.intersystems.com](https://name.contest.community.intersystems.com).

The key could be obtained in a [Docker channel in Discord](#).

Presented by [@Evgeny Shvarov](#), Developer Ecosystem Manager, InterSystems

Stay tuned!
